

Vasanthakumar Thajeevan

Software Engineer Intern

+94 761115854 | vasanththajeevan@gmail.com | [ThajeevanSE](#) | [thajeevan-vasanthakumar](#)
Colombo, Western Province

Objective

Driven and detail-oriented software engineering undergraduate aiming for a full-stack development internship. Skilled in problem-solving, analytical thinking, and software design, with a strong focus on creating innovative, high-quality, and user-focused solutions. Eager to contribute to collaborative projects and enhance overall product performance.

Education

- **University of Moratuwa**, Sri Lanka
BSc. (Hons) in Information Technology *May 2023 – Present*
GPA: 3.32 (Up to 3rd semester)
- **Primary and Secondary Education**
Kn/Kilinochchi Maha Vidyalayam, Sri Lanka *January 2007 - 2021 december*
GCE Advanced Level: 2B,C
GCE Ordinary Level: 7A,B,C

Skills

Programming Languages: C, C++, Java, Python, JavaScript

Frontend Technologies: CSS, ReactJS, MUI, TailwindCSS

Backend Technologies: Django, Spring Boot

Databases/Cloud Services: PostgreSQL, MySQL, AWS, Azure

Tools: Figma, AutoCAD, Packet Tracer, LucidChart

Version Control: Git

Languages: English (Professional), Tamil (Native), Sinhala (Manageable)

Soft Skills: Problem Solving, Creativity, Self-Learning, Teamwork, Coordination, Communication, Adaptability

Projects

- **Online Ticket Booking System** GitHub
HTML, JavaScript, CSS
 - Front-end application for selecting seats and displaying the total amount.
 - Provides a simple and interactive interface for ticket booking.
- **Habistro App Admin Dashboard (Second Year Project)** GitHub
Next.js, Django REST, TypeScript, TailwindCSS, Dart, CMake
 - Developed an admin dashboard for monitoring user habits and platform usage.
 - Integrated with Django backend for data management and analytics.
 - Enabled admin functionalities like email notifications, user suspension, and blog management.
 - Provided insights on user activity, screen time, and task completions.
- **Juice Maker Machine : [First Year Hardware Project]** GitHub
Tools: Arduino Mega 2560, Sensors, Motors, Keypad, LCD Display
 - Developed an automated juice-making machine with Arduino Mega 2560.
 - Integrated sensors and motor control for precise juice dispensing.
 - Designed a user interface with keypad and LCD display for easy operation.

Certifications

- Participated in Hackathon: *AlgoXplore, Teamwork, Learning, Quantum Coders, NSBM Coding Challenge*

Extracurricular Activities

- Chess – Local tournament participant; demonstrates strategic thinking and problem-solving.
- Cricket – College/community all-rounder; showcases leadership and teamwork.
- Volleyball – Active in inter-college events; strong coordination and communication skills.
- Team Leader – 2nd-year software project, University of Moratuwa.
- Academic Competitions – CodeRush participant.
